

# KPMG Sustainability Managed Services

Flexible, cost-effective services that help you achieve your sustainability goals

Achieving sustainability objectives that align with your organization's high performance standards can be demanding. Challenges are everywhere, whether you're aiming to mitigate compliance risks and achieve voluntary goals, or seeking ways to drive value.

<b>Uncertain regulatory environment</b>	<b>Lack of confidence in your data</b>	<b>Few experienced resources</b>	<b>Increased scrutiny from stakeholders and the public</b>	<b>Complex technology landscape</b>

## The KPMG solution

With KPMG Sustainability Managed Services (KSMS), you can choose a solution that aligns with your needs.

We combine the capabilities of KPMG professionals with technologies, insights, leading practices and strategic alliances, packaged in an “as-a-service” model.

KPMG professionals collaborate with you to support your organization’s ongoing transformation. We establish a consistent sustainability reporting cadence, along with a suite of support services to help you meet your reporting expectations and enable broader sustainability goals.

We also use reports to identify opportunities to protect value in your organization and watch for opportunities that you can pursue.

KPMG member firms have you covered, from reports for multiple regulations and support on your data governance and calculations, to support from our technical specialists. We also prioritize maintaining positive relationships with regulators and other stakeholders.

In addition, KPMG methodologies leverage experience from across the global organization to provide broad-ranging services for your needs.

**This fixed price, modular service can help you go beyond the back office, beyond cost savings and beyond technology. KPMG enables you to meet your current – and future – sustainability goals.**

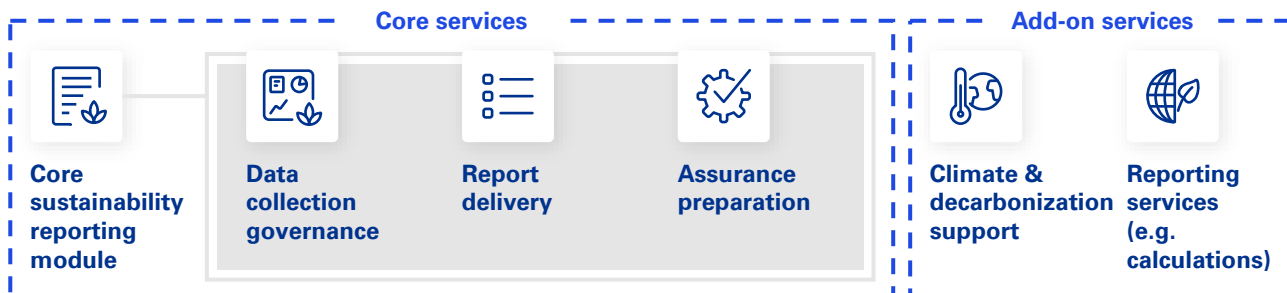

- Get low-risk, low-burden delivery
- Position your team to drive further sustainable value
- Drive positive stakeholder perceptions through quality reporting
- Remain competitive in vendor selection processes
- Plan spending with predictable costs

**Ongoing support from KPMG professionals helps deliver compliance with rapidly changing regulations**

## The KPMG difference

KPMG Managed Services aid clients in their transformation journey. Ongoing guidance comes in the form of the KPMG global network, extensive sector experience, and domain knowledge across a wide range of ESG topics. The subscription-based services are designed to offer predictable costs, any-shore delivery and the option to flex up or down to meet changing needs.

Through KPMG Sustainability Managed Services, you understand the extent of your ESG impacts and uncover opportunities. This understanding helps you to align sustainability strategies with global leading practices, while promoting ownership and accountability with senior leadership. Your organization can integrate ESG into daily operations through KPIs and enhance both performance tracking and risk management.

Member firms leverage established alliances with leading technology providers that are focused on sustainability performance and reporting. Under these alliances, KPMG professionals deliver the latest updates and accelerate the use of AI and enhanced features as they are released. This unique combination of expertise and technology in a subscription-based service helps your organization proactively meet the changing regulatory landscape, generating potential for advantage in competitive markets.
